

YOUTH

Directly addressing youth:

Proposed goal 1. End poverty

- achieve equal access to productive employment and decent work for all, including young people (1.4)

Proposed goal 4. Education and life-long learning opportunities

- ensure all girls and boys complete free, equitable and quality primary and secondary education (4.1)
- achieve universal youth literacy and basic numeracy (4.4)
- increase by x% the number of young women and men with the skills needed for employment, including vocational training, ICT, technical, engineering and scientific skills (4.5)

Proposed goal 8. Economic growth and decent work for all

- achieve full and productive employment and decent work for all, including for young people (8.3)
- by 2020 halve the number of youth not in employment, education or training (8.4)

Proposed goal 10. Inequalities

- empower and promote the social and economic inclusion of the poor, the marginalized and people in vulnerable situations, including youth (10.5)

Indirectly addressing youth interests:

SDG framework is an expression of intergenerational solidarity / contract for the future.

Proposed goal 4. Provide equitable and inclusive quality education and life-long learning opportunities for all

- by 2030 ensure equal access for all to affordable quality tertiary education and life-long learning (4.2)

Proposed goal 10. Reduce inequality within and among countries

- ensure the availability of high-quality, timely and disaggregated data to ensure monitoring of progress for marginalized groups and people in vulnerable situations (10.7)

Proposed goal 16. Peaceful and inclusive societies, rule of law, effective and capable institutions

- increase inclusive, participatory and representative decision-making at all levels, taking into consideration the interests of present and future generations (16.4)

PERSONS WITH DISABILITIES

Proposed goal 1. End poverty

- achieve equal access to productive employment and decent work for all, including persons with disabilities (1.4)

Proposed goal 4. Inclusive quality education

- ensure that people in vulnerable situations and marginalized people including persons with disabilities have access to inclusive education, skills development and vocational training aligned with labour market needs (4.6)
- ensure that all schools and other educational institutions provide inclusive learning environments for all (4.8)

Proposed goal8. Economic growth and decent work

- achieve full and productive employment and decent work for all women and men, including for young people and persons with disabilities (8.3)

Proposed goal10. Inequalities

- empower and promote the social and economic inclusion of the poor, the marginalized and people in vulnerable situations, including persons with disabilities (10.5)

Proposed goal11. Inclusive, safe and sustainable cities and human settlements

- provide access to safe, affordable, accessible and sustainable transport for all (11.2)
- ensure universal access to inclusive and safe public spaces (11.7)
- ensure that all cities are accessible and offer opportunities to persons with disabilities (11.8)

Proposed goal16. Peaceful and inclusive societies, rule of law, effective and capable institutions

- ensure that all laws are publicized and accessible by all (16.15)

MIGRANTS

Proposed goal8. Economic growth and decent work

- protect the rights and ensure safe and secure working environments of all workers, including migrant workers and those in precarious employment (8.13)

- lower the overall costs in migration processes and minimize transaction costs of remittances (8.15)

Proposed goal10.Reduce inequality within and among countries

- empower and promote the social and economic inclusion of the poor, the marginalized and people in vulnerable situations, including migrants (10.5)

Proposed goal17.Strengthen and enhance the means of implementation and global partnership for sustainable development

- reduce to 5% or below the transaction costs of migrants’ remittances, including regulatory and administrative costs (17.34)
- enhance global cooperation to facilitate orderly, safe, responsible migration and mobility of people, including through implementation of planned and managed migration policies that facilitate migrants’ contribution to sustainable development (17.35)

LEAST DEVELOPED COUNTRIES

7 - Ensure access to affordable, sustainable, and reliable modern energy services for all (7.6)

- by 2030 expand and upgrade as appropriate infrastructure for supply, transmission and distribution of modern and renewable energy services in rural and urban areas, including with a view to doubling primary energy supply per capita for LDCs

8 - Promote strong, inclusive and sustainable economic growth and decent work for all (8.9)

- increase the share of high productivity sectors and activities in the economy, and strengthen productive capacities through technological upgrading, greater value addition and product diversification, with a particular focus on LDCs

9 - Promote sustainable industrialization (9.4, 9.6)

- significantly raise industry’s share of employment and GDP in line with national strategies, including doubling manufacturing’s share in LDCs by 2030 (9.4)
- support the integration of developing country industrial enterprises, particularly in Africa and LDCs, into regional and global value chains (9.6)

14 - Take urgent and significant actions for the conservation and sustainable use of marine resources, oceans and seas (14.9, 14.10)

- by 2020, eliminate subsidies which contribute to overcapacity and overfishing, and refrain from introducing new such subsidies, taking into account the need of developing countries, notably least developed countries and SIDS (14.9)
- by 2030, increase the economic returns to SIDS and LDCs from the sustainable development of coastal and marine resources from within their jurisdictions (14.10)

17 - Strengthen and enhance the means of implementation and global partnership for sustainable development (17.2, 17.3, 17.4, 17.13, 17.24, 17.32, 17.37, 17.41)

- realize timely implementation of duty-free quota-free market access, on a lasting basis for all least developed countries in accordance with WTO decisions and the Istanbul Programme of Action (17.2)
- developed countries implement fully ODA commitments to provide 0.7% of GNI in ODA to developing countries of which 0.15-0.20% to least-developed countries on an agreed timeline based on internationally agreed principles (17.3)
- direct ODA and encourage financial flows to states where the need is greatest, in particular African countries, LDCs, SIDS, LLDCs, and vulnerable states (17.4)
- increase by x% by 2030 the recruitment, development and training and retention of the health workforce and teachers in developing countries, especially in LDCs (17.13)
- improve market access for agricultural, fisheries and industrial exports of developing countries in particular African countries, Least Developed Countries, LLDCs and SIDS with a view to increasing their share of exports in global markets (17.24)
- fully operationalize the Technology Bank and STI Capacity Building Mechanism for LDCs by 2017 (17.32)
- provide financial and technical support to least developed countries to build urban infrastructure including communications, sewerage, waste management, recycling and other basic services (17.37)
- increase scientific knowledge, and develop research infrastructure and capacities to enhance the contribution of marine biodiversity to the development of developing countries, in particular of SIDS and LDCs (17.41)

INDIGENOUS PEOPLES

Proposed goal 2. Sustainable agriculture

- protection and sustainable use of agricultural biodiversity, including through enhanced use and application of indigenous practices and local and traditional knowledge (2.9)

Proposed goal 4. Education

- ensure that people in vulnerable situations and marginalized people including persons with disabilities and indigenous peoples have access to inclusive education (4.6)

Proposed goal 9. Sustainable industrialization

- promote indigenous technology development and the growth of domestic innovation in developing countries (9.10)

Proposed goal 10. Inequalities

- empower and promote the social and economic inclusion of the poor, the marginalized and people in vulnerable situations, including indigenous peoples (10.5)

Proposed goal 15. Ecosystems and biodiversity

- ensure free prior informed consent of indigenous peoples and local communities in decision making and natural resources management, and promote the use of their traditional knowledge (15.10)

GENDER EQUALITY

Proposed goal 1. End poverty

- equal access to productive employment and decent work for all, including women (1.4)
- secure rights to own land, property, access to financial services for all men and women (1.5)

Proposed goal 2. Hunger, food security and nutrition

- address the nutritional needs of pregnant and lactating women (2.2)
- increase small-scale food producers' incomes, with particular focus on women (2.3)
- access to adequate productive resources and markets, with particular focus on women (2.4)

Proposed goal 3. Healthy life for all

- reduce the maternal mortality ratio (3.1)

- universal access to sexual and reproductive health (3.8)

Proposed goal 4. Education

- ensure all girls and boys complete primary and secondary education (4.1)
- increase nr. of women and men with skills, including vocational training, ICT, etc. (4.5)
- ensure safe, healthy, non-discriminatory and inclusive learning environments (4.8)

Proposed goal 5. Gender equality, empower women and girls

- End all forms of discrimination
- Eliminate violence
- Eliminate harmful practices, incl. child marriage and female genital mutilation
- Gender parity in education
- Full and productive employment, equal pay for equal work
- Reduce unpaid care and domestic work
- Equal access to assets and productive resources, and services
- Equal participation and leadership in decision-making
- Sexual and reproductive health and reproductive rights (in accordance with ICPD)
- Gender disaggregated data, gender responsive budgeting
- Engagement of men and boys

Proposed goal6. Water and sanitation

- sanitation and hygiene, paying special attention to the needs of women and girls (6.2)

Proposed goal 7. Energy

- increase the share of clean energy technologies, including advanced cookstoves (7.4)

Proposed goal8. Economic growth and decent work

- full and productive employment and decent work for all women and men (8.3)

Proposed goal10. Inequalities

- eliminate discriminatory laws, policies and practices (10.1)
- empower and promote the inclusion of the marginalized, including women (10.5)

Proposed goal11. Safe and sustainable cities

- safe, affordable, accessible transport for all (11.2)
- safe public spaces (11.7)

Proposed goal 16. Peaceful and inclusive societies, rule of law, effective and capable institutions

- reduce all forms of organized crime including human trafficking (16.3)
- inclusive, participatory and representative decision-making at all levels (16.4)
- equal access for all to independent, effective, and responsive justice systems (16.12)
- provide legal identity for all, including birth registrations (16.13)

Proposed goal 17. Means of implementation

- universal access to ICT for all women and men, including as a means of promoting women's empowerment (17.16)
- increase financial resources and services across all sectors to achieve gender equality, empowerment of women, and the realization and enjoyment of women's and girls' human rights (17.17)

HUMAN RIGHTS

Non-discrimination:

- eliminate discriminatory laws, policies and practices (10.1)
- mainstreaming the notion to reach future targets "for all", ensure "non-discriminatory" access

Equality:

- reduce inequalities of opportunity and outcome among social groups, including economic, social, and environmental inequalities (10.3)
- empower and promote the social and economic inclusion of the poor, the marginalized and people in vulnerable situations (10.5)
- ensure the availability of high-quality, timely and disaggregated data to ensure monitoring of progress for marginalized groups (10.7)
- achieve and sustain income growth of the bottom 40% of the population (10.2)

- Focus on the marginalized and vulnerable under various targets: social protection, rights to own land, property and productive resources, universal health coverage, inclusive education

Civil and political rights:

- inclusive, participatory and representative decision-making at all levels (16.4)
- accountability of the security forces, police and judiciary (16.10)
- effective, accountable and transparent public institutions (16.11)
- equal access for all to independent, effective, and responsive justice systems (16.12)
- legal identity for all, including birth registrations (16.13)
- access to information and government data (16.14)
- all laws are publicized and accessible (16.15)
- decrease and provide accountability for corruption (16.16)
- promote freedom of media, association and speech (16.17)

Gender equality, empowerment of women and girls:

- Entire proposed goal 5
- secure rights to own land, property, access to financial services (1.5)
- nutritional needs of pregnant and lactating women (2.2)
- access to productive resources and markets (2.4) reduce the maternal mortality ratio (3.1)
- universal access to sexual and reproductive health (3.8)
- non-discriminatory and inclusive learning environments (4.8)
- sanitation and hygiene, paying special attention to the needs of women and girls (6.2)
- clean energy technologies, including advanced cookstoves (7.4)
- full and productive employment and decent work (8.3)
- safe, affordable, accessible transport for all (11.2), safe public spaces (11.7)
- reduce organized crime, human trafficking, equal access to justice systems, legal identity (16)
- financial resources for gender equality (17)

Rights of the child:

- end malnutrition, reducing stunting and wasting in children (2.2)
- end preventable newborn, infant and under-five deaths (3.2)
- pre-primary education, early childhood development, primary and secondary education (4)
- safe, health learning environment (4.8)
- eliminate all harmful practices, including child, early and forced marriage and FGM (5.3)
- end child labour (8.13)
- end abuse, exploitation and violence against children (16.2)

Rights of persons with disabilities:

- access to inclusive education (4.6)
- full and productive employment and decent work for (1.4, 8.3)
- accessible sustainable transport (11.2)
- all cities are accessible and offer opportunities (11.8)

Rights of indigenous peoples:

- protection and sustainable use of agricultural biodiversity (2.9)
- promote indigenous technology development (9.10)
- free prior informed consent in decision making and natural resources management, and promote the use of their traditional knowledge (15.10)

Rights of migrants:

- protect rights of migrant workers (8.13)
- enhance global cooperation to facilitate orderly, safe, responsible migration and mobility of people (17.35)

Economic, social and cultural rights (*in addition to those listed above*):

- access to adequate, safe, affordable food (2.1)
- universal health coverage, access to safe, affordable medicines, vaccines (3.6-7)
- access to safe and affordable drinking water, sanitation and hygiene (6.1)
- access to sustainable energy services (7.1)
- protect the rights and ensure safe and secure working environments of all workers (8.13)

- access to adequate and affordable housing, basic services, transport for all (11.1-2)
- corporate social and environmental responsibility (12.9)

FAMILY

Targets that directly or indirectly support families:

Proposed goal 1. End poverty in all its forms everywhere

- implement nationally appropriate social protection measures including floors (1.3)

Proposed goal 2. Hunger, food security and nutrition

- address the nutritional needs of pregnant and lactating women (2.2)
- substantially increase small-scale food producers' incomes and productivity, including small family farmers (2.3)
- achieve access to adequate inputs, knowledge and productive resources, financial services and markets, especially for small and family farmers (2.4)

Proposed goal 3. Healthy life

- reduce the maternal mortality ratio (3.1)

Proposed goal 4. Education

- free, equitable and quality primary and secondary education (4.1)
- access to inclusive quality pre-primary education and other early childhood development programmes (4.3)
- ensure that all schools provide safe and healthy learning environments (4.8)

Proposed goal 8. Economic growth and decent work

- create enabling conditions for increased growth and productivity of micro-, small- and medium-scale enterprises (SMEs) (8.8)

Proposed goal 11. Sustainable cities

- universal access to adequate and affordable housing (11.1)
- safe public spaces (11.7)

FINANCIAL INCLUSION

1 - End poverty in all its forms everywhere (1.5)

- by 2030 ensure development opportunities for all men and women, including secure rights to own land, property and other productive resources, **and access to financial services**, with particular focus on the poor, the most marginalized and people in vulnerable situations

2 - End hunger, achieve food security and adequate nutrition for all, and promote sustainable agriculture (2.4)

- by 2030 achieve access to adequate inputs, knowledge and productive resources, **financial services** and markets, especially for small and family farmers, pastoralists, and fishers, with a particular focus on women

5 - Attain gender equality, empower women and girls everywhere (5.7)

- ensure women's equal access to, control and ownership of assets and natural and other productive resources, as well as non-discriminatory access to essential services and infrastructure, including **financial services** and ICT

8 - Promote strong, inclusive and sustainable economic growth and decent work for all (8.8)

- create enabling conditions for increased growth and productivity of micro-, small- and medium-scale enterprises (SMEs), including through policies that promote entrepreneurship, creativity and innovation, and through improved **access to markets and financial services**

9 - Promote sustainable industrialization (9.12)

- ensure small-scale industrial producers have affordable **access to credit and financial services**

CULTURE

Proposed goal 2. End hunger, achieve food security and adequate nutrition for all, and promote sustainable agriculture

- achieve by 2030 protection and sustainable use of agricultural biodiversity, including through enhanced use and application of indigenous practices and local and traditional knowledge, and through agricultural research and development related to agro-biodiversity and diversity of food (2.9)

Proposed goal 4. Provide equitable and inclusive quality education and life-long learning opportunities for all

- by 2030 integrate relevant knowledge and skills in education curricula and training programs, including education for sustainable development and awareness raising on culture's contribution to sustainable development (4.7)

Proposed goal 8. Promote strong, inclusive and sustainable economic growth and decent work for all

- create incentives for the development of sustainable tourism which takes into account community participation, local culture and local products (8.7)

Proposed goal 10. Reduce inequality within and among countries

- promote and respect cultural diversity (10.6)

Proposed goal 11. Build inclusive, safe and sustainable cities and human settlements

- protect and safeguard the world's cultural and natural heritage (11.9)

Proposed goal 12. Promote sustainable consumption and production patterns

- by 2030 redouble efforts to create a culture of sustainable lifestyles, including through education, awareness raising, sustainability information on products and services, policies and incentives (12.7)

Proposed goal 15. Protect and restore terrestrial ecosystems and halt all biodiversity loss

- ensure free prior informed consent of indigenous peoples and local communities in decision making and natural resources management, and promote the use of their traditional knowledge (15.10)

Proposed goal 16. Achieve peaceful and inclusive societies, rule of law, effective and capable institutions

- by 2020 provide information and education on a culture of non-violence (16.7)

DISASTER PREPAREDNESS AND RESILIENCE BUILDING

Proposed goal 1. End poverty in all its forms everywhere

- by 2030 strengthen early warning and disaster risk reduction systems and related capacities with the aim of building resilience and protecting the poor and those in vulnerable situations from disasters and shocks, including climate-related extreme

events (1.6)

Proposed goal 2. End hunger, achieve food security and adequate nutrition for all, and promote sustainable agriculture

- by 2030, fully implement agricultural practices that strengthen resilience and adaptation to extreme weather, drought, climate change and natural disasters, in particular for small-scale farmers (2.8)
- improve effectiveness of addressing humanitarian food emergencies, including as appropriate through stockholding (2.10)

Proposed goal 6. Water and sanitation for a sustainable world

- provide adequate facilities and infrastructure, both built and natural, for safe drinking water and sanitation systems, for productive uses of water resources and for mitigating the impacts of water-related disasters (6.8)

Proposed goal 8. Promote strong, inclusive and sustainable economic growth and decent work for all

- support the development of quality, reliable, sustainable and resilient infrastructure for transport, energy, water and communications, in particular in developing countries with a focus on access for the rural and urban poor (8.11)

Proposed goal 11. Build inclusive, safe and sustainable cities and human settlements

- by 2030, ensure universal access to adequate and affordable housing and basic services for all, and eliminate slum-like conditions everywhere (11.1)
- enhance capacities for integrated and sustainable human settlement planning and management for all, particularly developing countries (11.3)
- by 2020, increase by x% the number of human settlements adopting and implementing policies and plans towards resilience and adaptation to climate change and natural disasters (11.6)

Proposed goal 13. Promote actions at all levels to address climate change

- build resilience and adaptive capacity to climate induced hazards in all vulnerable countries (13.2)
- improve education, awareness raising and human and institutional capacity on climate change impact reduction and early warning (13.5)

Proposed goal 14. Take urgent and significant actions for the conservation and sustainable use of marine resources, oceans and seas (14.2, 14.11)

- implement integrated and participatory coastal management to increase resilience of coastal ecosystems (14.11)

Proposed goal 16. Peaceful and inclusive societies, rule of law, effective and capable institutions

- enhance the capacity, professionalism and accountability of the security forces, police and judiciary (16.10)

Proposed goal 17. Strengthen and enhance the means of implementation and global partnership for sustainable development

- increase the capacity for early warning, risk reduction, and management of national and global health risks (17.14)

CLIMATE

Proposed goal 1. End poverty in all its forms everywhere

- by 2030 strengthen early warning and disaster risk reduction systems and related capacities with the aim of building resilience and protecting the poor and those in vulnerable situations from disasters and shocks, including climate-related extreme events (1.6)

Proposed goal 2. End hunger, achieve food security and adequate nutrition for all, and promote sustainable agriculture

- by 2030, fully implement agricultural practices that strengthen resilience and adaptation to extreme weather, drought, climate change and natural disasters, in particular for small-scale farmers (2.8)

Proposed goal 7. Ensure access to affordable, sustainable, and reliable modern energy services for all

- double the share of renewable energy in the global energy mix by 2030 (7.2)
- double the global rate of improvement in energy efficiency by 2030 (7.3)

Proposed goal9. Promote sustainable industrialization

- by 2030 retrofit x% of existing industries with clean technologies and environmentally sound industrial processes to achieve y% energy and z% resource-efficiency improvement, with all countries taking action, developed countries taking the lead and developing countries following a similar pattern taking into account their development needs and capabilities. (9.11)

Proposed goal11. Build inclusive, safe and sustainable cities and human settlements

- by 2030, reduce the environmental impacts of cities and improve the quality of environment in cities (11.5)
- by 2020, increase by x% the number of human settlements adopting and implementing policies and plans towards resilience and adaptation to climate change and natural disasters (11.6)

Proposed goal13. Promote actions at all levels to address climate change

/ Build a climate change goal based on the outcome of COP21 of the UNFCCC

- hold the increase in global average temperature below a x°C rise in accordance with international agreements (13.1)
- build resilience and adaptive capacity to climate induced hazards in all vulnerable countries (13.2)
- by 20xx integrate climate change adaptation and mitigation strategies into development plans and poverty reduction strategies (13.3)
- by 20xx introduce instruments and incentives for investments in low-carbon solutions in all relevant sectors (13.4)
- improve education, awareness raising and human and institutional capacity on climate change impact reduction and early warning (13.5)

Proposed goal14. Take urgent and significant actions for the conservation and sustainable use of marine resources, oceans and seas

- address and prevent further ocean acidification (14.3)

Proposed goal15. Protect and restore terrestrial ecosystems and halt all biodiversity loss

- by 2030, ensure the implementation of sustainable management of all types of forests and of mountain ecosystems (15.4)
- by 2030 reverse the loss of and enhance forest cover worldwide, increase reforestation by x%, including by providing adequate incentives for developing countries (15.5)

Proposed goal 17. Strengthen and enhance the means of implementation and global partnership for sustainable development

- rationalize the Green Climate Fund as soon as possible (17.40)

CHILDREN

Proposed goal 2. Hunger, food security and nutrition

- end malnutrition in all its forms, with special attention to reducing stunting and wasting in children under five (2.2)

Proposed goal 3. Healthy life

- end preventable newborn, infant and under-five deaths (3.2)

Proposed goal 4. Education

- ensure all girls and boys complete free, equitable and quality primary and secondary education (4.1)
- increase access to inclusive quality pre-primary education and other early childhood development programmes (4.3)
- ensure safe, healthy, non-discriminatory and inclusive learning environments (4.8)

Proposed goal 5. Gender equality, empowerment of women and girls

- end all forms of discrimination against women and girls (5.1)
- eliminate all forms of violence against all women and girls (5.2)
- eliminate all harmful practices, including child, early and forced marriage and female genital mutilations (5.3)

Proposed goal 6. Water and sanitation

- universal access to safe and affordable sanitation and hygiene, paying special attention to the needs of women and girls (6.2)

Proposed goal 8. Economic growth and decent work

- end child labour (8.13)

Proposed goal 10. Inequalities

- empower and promote the social and economic inclusion of the poor, the marginalized and people in vulnerable situations, including children (10.5)

Proposed goal16. Peaceful and inclusive societies

- end abuse, exploitation and violence against children (16.2)
- increase inclusive, participatory and representative decision-making at all levels, taking into consideration the interests of present and future generations (16.4)

INFRASTRUCTURE

Directly addressing infrastructure

Proposed goal 5. Attain gender equality, empower women and girls everywhere

- ensure women's equal access to, control and ownership of assets and natural and other productive resources, as well as non-discriminatory access to essential services and infrastructure, including financial services and ICT (5.7)

Proposed goal6. Secure water and sanitation for all for a sustainable world

- provide adequate facilities and infrastructure, both built and natural, for safe drinking water and sanitation systems, for productive uses of water resources and for mitigating the impacts of water-related disasters (6.8)

Proposed goal7. Ensure access to affordable, sustainable, and reliable modern energy services for all

- by 2030 expand and upgrade as appropriate infrastructure for supply, transmission and distribution of modern and renewable energy services in rural and urban areas, including with a view to doubling primary energy supply per capita for LDCs (7.6)

Proposed goal8. Promote strong, inclusive and sustainable economic growth and decent work for all

- support the development of quality, reliable, sustainable and resilient infrastructure for transport, energy, water and communications, in particular in developing countries with a focus on access for the rural and urban poor (8.11)
- improve regional and trans-border infrastructure to promote effective regional economic integration and facilitate trade (8.12)

Proposed goal17. Strengthen and enhance the means of implementation and global partnership for sustainable development

- increase investment in rural infrastructure, agricultural research, technology development, institutions and capacity building in developing countries to

enhance agricultural productive capacity, particularly in countries that are net food importers (17.9)

- encourage public and private sector investment, in particular public-private partnerships, in energy infrastructure and cleaner energy technologies (17.20)
- facilitate investments in developing countries in infrastructure such as roads, railways, ports, water supply and treatment, and ICT (17.29)
- provide financial and technical support to least developed countries to build urban infrastructure including communications, sewerage, waste management, recycling and other basic services (17.37)
- increase scientific knowledge, and develop research infrastructure and capacities to enhance the contribution of marine biodiversity to the development of developing countries, in particular of SIDS and LDCs (17.41)

Indirectly addressing infrastructure

Proposed goal 4. Provide equitable and inclusive quality education and life-long learning opportunities for all

- by 2030 ensure that all schools and other educational institutions provide safe, healthy, non-discriminatory and inclusive learning environments for all (4.8)

Proposed goal6. Secure water and sanitation for all for a sustainable world

- by 2030, provide universal access to safe and affordable drinking water, adequate sanitation and hygiene for all (6.1)
- by 2030 provide universal access to safe and affordable sanitation and hygiene including at home, schools, health centers and refugee camps, paying special attention to the needs of women and girls (6.2)
- by 2030, improve water quality by significantly reducing pollution, eliminating dumping of toxic materials, and improving wastewater management by x%, recycling and reuse by y% (6.3)

Proposed goal7. Ensure access to affordable, sustainable, and reliable modern energy services for all

- by 2030 ensure universal access to sustainable modern energy services for all (7.1)

Proposed goal9. Promote sustainable industrialization

- increase industrial diversification in developing countries, including through enhanced domestic processing of raw materials and commodities and through new product development (9.5)

Proposed goal11. Build inclusive, safe and sustainable cities and human settlements

- by 2030, ensure universal access to adequate and affordable housing and basic services for all, and eliminate slum-like conditions everywhere (11.1)
- by 2030, provide access to safe, affordable, accessible and sustainable transport for all, expand public transport and improve road safety (11.2)

Proposed goal14. Attain conservation and sustainable use of marine resources, oceans and seas

- by 2030, reduce by x% marine pollution of all kinds, including from land-based activities (14.1)

Proposed goal17.Strengthen and enhance the means of implementation and global partnership for sustainable development

- by 2030, achieve universal access to ICT for all women and men, including as a means of promoting women's empowerment (17.16)
- by 2030, expand international cooperation and support in water and sanitation related technologies, including water harvesting technologies and wastewater treatment, recycling and reuse technologies (17.18)
- enhance international cooperation to facilitate developing countries' access to clean energy technologies, including through appropriate partnerships (17.19)
