

Improving customary land tenure for smallholder farmers in Laos

Application of fit-for-purpose and gender responsive land tools and approaches

Village Focus International (VFI) together with the Global Land Tool Network (GLTN) as facilitated by UN-Habitat is organizing a webinar session to present lessons learnt and impacts from the BMZ funded project – **Secure Access to Land and Resources (SALaR)** project in Laos

The session will bring together government, various local and regional partners to share their experiences on securing customary tenure from the SALaR and related projects.

18th November 2021

14:00 – 15:30
