FURTHER INFORMATION

THE GLOBAL LAND TOOL NETWORK - GLTN is an alliance of 80 global, regional and national partners consisting of professionals, development partners, research and training institutions, technical and civil society groups contributing to poverty alleviation through land reform, improved management and security of tenure particularly through the development. Since its launch in 2006, it continues to develop and disseminate pro-poor and gender-sensitive land tools to address land tenure and reform issues.

Our partners work together to improve tenure security for as many people as possible by developing and disseminating: (A) An inclusive land tenure approach: one that recognizes various forms of tenure, and that involves stakeholders in seeking solutions that are fair and just to all, and (b) A set of practical, innovative land tools: practical, innovative methods to solve problems related to land tenure. We develop, test and demonstrate these tools in a range of countries, aiming to catalyse their wide use and adoption.

Our Network includes representation of all relevant professions and disciplines, civil society and grassroots organizations, multilateral and bilateral organizations. Because we are a network of organizations, many of which are themselves networks, we add considerably to our global footprint, country reach and on-the-ground impact.

GLTN Secretariat started preparing with colleagues and partners the Phase 4 Programme of the Global Land Tool Network. After concluding the Phase 3 by the end of 2023. The Phase 4 will be running for a period of 4 years (2024-2027) under the overall framework of the GLTN Strategy 2018-2030.

PREVIOUS GLTN PARTNERS' MEETINGS - The GLTN Partner's Meeting is held every two years to provide an opportunity for a Network wide engagement to review the work done, realign priorities and forge a way forward for partners' engagement in the delivery of the GLTN agenda. Since its formation, GLTN organized eight Partners' Meetings.

	Date and Location	Objectives and Themes
The First Partners' meeting	November 2005 in Sweden	Focused on the Why, What and How of the establishment and functionalities of Network, including the institutional and financial implications
The Second Partners' meeting	March 2006 in Norway	The identification of concrete mechanisms to support ongoing GLTN initiatives and the priority pro-poor land tools to be developed
The Third Partners' meeting	November 2009 in Kenya	Strengthen the partnership arrangements to improve synergy and interactions towards advancing the GLTN agenda, core values and objectives and deciding concrete contribution for its success.
The Fourth Partners' meeting	November 2011 in Kenya	Strengthening Partnerships: Sustaining the paradigm shift towards designing, developing and implementing pro-poor land tools and approaches

The Fifth Partners' meeting	November 2013 in Netherlands	Working together at country level: Implementing land tools through partnership
The Sixth Partners' meeting	November 2015 in Kenya	Strengthening partnership and collaboration within the Network and increasing visibility of land and tenure security in the development processes related to Sustainable Development Goals and the New Urban Agenda
The Seventh Partners' meeting	April 2018 in Kenya	Reflect on the key achievements of the GLTN partnership, explore the opportunities for strengthening collaborative efforts to address emerging land tenure issues within the global agenda; Connect, learn and be inspired by each other; and Engage the partnership in new directions with the 2018-2030 strategy.
The Eight Partners' meeting	December 2020, online	Provide an opportunity to share and discuss experiences, trends and tools related to land tenure security; reflect on the implementation of the GLTN Phase 3 strategy, cluster priorities and work plan in the context of COVID-19; To fulfil the requirements of the Partners' Charter regarding the election of cluster leads and the GLTN Steering Committee.
